Art Unit: 1772

1. Applicant's election with traverse of Group I, species A in Paper No. 3 is acknowledged. The traversal is on the ground(s) that the method claim 25 reads only on the disclosed embodiment. This is not found persuasive because the process as claimed can be used to make a other and materially different product such as one that is not a synthetic resinous seal. Claims 11 and 25 are withdrawn from consideration as being directed to a non-elected invention.

The requirement is still deemed proper and is therefore made FINAL.

2. The application is objected to because of alterations which have not been initialed and/or dated as is required by 37 CFR 1.52(c). A properly executed oath or declaration which complies with 37 CFR 1.67(a) and identifies the application by application number and filing date is required. Applicant's arguments have been considered but are not deemed persuasive. The changes in the specification at page 4, line 9 do not appear to be mere spelling mistakes. In any event 37 CFR 1.52(c) requires a substitute specification for any alteration made to the specification.

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 15-24 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 9-13 of U.S. Patent No. 6041202. Although the conflicting claims are not identical, they are not patentably distinct from each other because it would have been obvious to one of ordinary skill in the art to form the layers in the patent from well known materials, such as polyethylene and polypropylene, in view of the disclosure at page 6, lines 6-10 of the instant specification. Applicant's arguments have been considered but are not deemed persuasive. Applicant argues that the prior patent is not directed to lamination of the two fibrous layers along an axially central area and is directed to lamination at spaced intervals. Claim 13 of the patent discloses a continuous strip of additional fibrous material laminated to a first strip of fibrous material. While there is no specific teaching of laminated the additional fibrous layer to the central portion, such a structure would have been obvious to one of ordinary skill in the art since it is well known in the toner seal art to have the strip tearable in a centrally located area of the seal; see the instant specification, the paragraph bridging pages 1 and 2.

5. This application contains claims 11 and 25 drawn to an invention nonelected with traverse in Paper No. 2 and 3. A complete reply to the final rejection must include cancelation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 1772

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
